LENOVO THINKPAD L SERIES NOTEBOOKS

- ThinkVantage Power Manager, EPEAT Gold, EnergyStar 5.0 help you save energy and money
- Outstanding quality and reliability — has passed rigorous military specification tests
- Integrated and discrete graphics
- Additional expansion capabilities with a large choice of ports and slots
- Optimum data security for worry-free computing
- Up to 8hr of battery life

Lenovo® recommends Windows® 7 Professional.

STAY UNPLUGGED AND WORK UNINTERRUPTED.

Get the power to work longer with the Lenovo® ThinkPad® T420/T520 notebooks. Powered by 2nd generation Intel® Core™ i7 vPro™ processors, they are the ultimate in visibly smart performance for business.

- 2nd generation Intel® Core™ i7 vPro™ processor
- Genuine Windows® 7 Professional
- 24hr of battery life (with the addition of a slice 9-cell battery.)
- 1.77kg, 21mm thin
- Passed 8 military specification tests
- Faster start-up and connection time

If you want to stay many notches ahead of your competition, it's time to step up the way you've been doing business. And what better way to start than by beefing up the technology that powers your system.

With a cent percent score in 8 rugged military-grade specification tests, up to 22 hours of battery life and a #1 TBR ranking to its credit, the ThinkPad T520 is here to take your business a long way. This ultra-light PC delivers super fast performance, is extremely easy to manage and completely secure.

WHY CHOOSE LENOVO®

WHY BUSINESS PARTNERS CHOOSE LENOVO?

Lenovo Partner Network programme makes Lenovo the vendor of choice for Business Partners
Lenovo is committed to Business Partners, with over 95%* of our European business going through the channel. We are backing this commitment with new investment and sweeping changes across all aspects of the way the company sells and supports Business Partners.

The resulting improvements that Partners will see include:

- **A single inventory** combining TopSeller and Special Bid products for **fastest possible delivery**, quicker bids & simpler pricing.
- **Improved incentives**, including all Lenovo products, to make earning money easier.
- **Quicker payments** to Partners - amongst the fastest in the industry - for improved cash flow.
- Channel Sales team expansion to make Lenovo the **easiest vendor to work with**.
- Increased Demand Generation to drive more **leads to Partners**.
- New Co-Marketing tools to enable Partners to integrate their marketing and drive more business.
- Additional Partner opportunities to maximise profits with high margin Lenovo services.

Lenovo is an attractive and rewarding vendor for Business Partners.

SUPPORTED SOFTWARE FOR LENOVO® THINKS SERVERS™*Exceptional Machines Deserve Exceptional Software.***Microsoft® Windows Server® Operating Systems Offerings.**

Lenovo offers Microsoft Windows Server Operating Systems for Lenovo ThinkServer™ systems as Reseller Option Kits (ROK). These offerings, available to Business Partners only, are packaged in easy-to-purchase kits which are competitively priced. The kits are designed to provide resellers with flexible Microsoft Operating System products that can be easily installed and configured for customers.

All Windows Server 2008 versions have the following features:

- **Virtualization:**
Hyper-V™ technology, an integrated hypervisor, is ideal for highly flexible virtualized environments
- **Scalability:**
Offers higher CPU and RAM support to meet your growing business needs
- **High Availability with Failover Clustering:**
Reduces downtime and improves business continuity
- **Security:**
Network Access Protection (NAP) helps prevent non-compliant computers from accessing an organization's network, helps verify the health of connecting computers, and helps enforce compliance with an organization's security standards
- **Flexible Application Access for Remote Users:**
Terminal Services RemoteApp (TS RemoteApp) allows users to access individual applications instead of a computer desktop with applications that run on the host computer and send only the application windows to the user, reducing administration and deployment costs

Lenovo® recommends Windows® 7 Professional.

Notes

GENUINE WINDOWS® 7. YOUR PC, SIMPLIFIED.

Lenovo PCs and Genuine Windows 7 are better together. Get the best computing experience possible with faster start-up and connection times plus more entertainment and security features than ever before.

Why Windows® 7?

- Easy to use:
Find what you need and get things done faster with simpler, more streamlined navigation.
- Easy to connect:
Share printers and documents with multiple PCs on your home or small business network in a snap.
- Easy to communicate and share:
Manage email, engage in IM, video and voice chats and edit/share digital photos like never before with Windows Live™ Mail, Windows Live Messenger, and Windows Live Photo Gallery.
- Easy to browse the web:
Browse the web faster and easier with Internet Explorer® 8's new features such as InPrivate, Accelerators, Web Slices, SmartScreen Filter and more.

Which Windows® 7 is best for your customers?

- Do they use their PC for entertainment?
Choose Windows® 7 Home Premium for the best entertainment experience on their Lenovo PC.
- Do they work from home?
Choose Windows® 7 Professional over Home Premium. It gives your customers everything they need for work and home.
- Do they rely on their PC for business?
Choose Windows® 7 Professional or Ultimate to get the productivity and support various business needs.
- Do they want the most from Windows® 7?
Choose Windows® 7 Ultimate over Professional. It's designed for people who want it all.

WINDOWS® 7 FEATURES	HOME PREMIUM	PROFESSIONAL	ULTIMATE
Improved desktop navigation	✓	✓	✓
Launch applications, find documents faster and easier	✓	✓	✓
Enjoy faster, easier and safer web experiences with Internet Explorer® 8	✓	✓	✓
Connect your home PC network to a single printer with HomeGroup	✓	✓	✓
Watch your favourite TV shows for free with Internet TV ¹	✓	✓	✓
Seamlessly run many existing Windows® XP programs		✓	✓
Connect easily to secure company networks with Domain Join™		✓	✓
Recover your data easily with automatic backup to your network(s)		✓	✓
Protect your data against loss or theft with BitLocker™		✓	✓
Location Aware Printing		✓	✓
Windows® Mobility Center ² (with Presentation Mode)			✓
Switch between any of thirty-five languages			✓

Notes: 1. A TV tuner and additional hardware may be required for some Windows® Media Center functionality. Not available in all countries. 2. Additional hardware may be required. Not available in all countries.

For the best computing experience, choose a Lenovo Enhanced Experience for Windows® 7 PC.
Learn more at www.lenovo.com/win7ee

MAKE YOUR PC FASTER, SECURE AND EASIER TO USE.

For the last three years, Lenovo® has been working with Windows® 7 to massively enhance performance and bring you the most optimised hardware and software combination.

This exclusive* certification – Lenovo Enhanced Experience for Windows® 7 – makes all Lenovo PCs:

FASTER

Lenovo Enhanced Experience (EE) PCs have optimised system files, processes and hardware settings and achieve up to 57% faster boot time than on non-EE systems and shutdown from as little as five seconds.

SECURE

From scanning for viruses before Windows® 7 even boots to the wide range of ThinkVantage® Technologies, Lenovo EE Think-branded PCs keep customers' data safe and secure.

BUILT FOR BUSINESS

Visual and easy to use interface along with fast, simplified, high-performance ThinkVantage Technologies extend and improve Windows® 7 experience on ThinkPad and ThinkCentre® systems:

- Work anywhere – a wide range of connectivity options, all in one place, made easy with Access Connections™. Plus, the latest energy efficiency standards coupled with extended battery life enhance user mobility
- Save money with low cost conferencing options or calls using an advanced camera, microphone and speakers with quick access keys on your PC
- Select Think-branded systems feature

EASIER

Quickly backup data and perform system maintenance on your Idea-branded PC at the press of a button.

RICHER

From crystal-clear, high-definition video to 3D gaming and animation, Lenovo PCs particularly Idea-branded products provide full multimedia functionality.

Lenovo Enhanced Experience certified products are available now. You can take the web training TXWA70 – Introduction to Lenovo Enhanced Experience for Windows® 7 at www.lenovo.com/partner/europe to learn more and start spreading the word to your customers.

*Valid at the time of publication 15.03.2010.

THINKVANTAGE® TECHNOLOGIES

PRIMARILY FOR LENOVO THINK FAMILY

ThinkVantage® Technologies

ThinkVantage Technologies software/hardware solutions are designed with large enterprise and midmarket in mind to help reduce the total cost of owning a PC. They help you to generate new opportunities for high value services and give you real potential to increase your margin by providing you with a competitive edge.

www.lenovo.com/innovation/europe

MOBILITY

Access Connection: Effortlessly switches your connection to match your location, including authentication keys, proxy settings, default printer, browser landing page, and more. Provides a simple user interface for WiFi, WWAN, Bluetooth, Ethernet, and modem connection. You can design custom connectivity profiles for your customers

DURABILITY

Active Protection System™: Using the same motion sensor used on cars' airbags, it detects sudden changes in motion and temporarily stops the hard drive to help protect valuable data caused by everyday notebook accidents.

SECURITY

Client Security Solution: hardware/software combination that helps protect vital security information like passwords, encryption keys and electronic credentials, while helping to guard against unauthorised user access. (Selected models: download may be required).

Secure Data Disposal™: Makes removing confidential information on a disk drive fast and simple, and makes certain the data is irretrievable

SUPPORT

Rescue and Recovery®: A complete recovery system to recover from nearly any software fault. Even includes a spare operating system for use when Windows will not boot. Includes Express Recovery, which fixes registry and Windows control file issues. Often fixes system problems in a 2-3 minutes.

ThinkVantage® button: invokes Rescue and Recovery if pressed during boot. Launches ThinkVantage Productivity Center if pressed after boot up, a customizable self-help center. You can design custom content for your customers.

System Migration Assistant™: Script-driven PC data migration. You can design custom, effortless migration capabilities for your customers.

ThinkVantage System Update: Automatically distributes drivers, BIOS updates, and TVT software updates. You can customize software delivery packages for your customers.

Other imaging and central management tools are available as part of the ThinkVantage® Technologies.

Watch the ThinkVantage® Technologies presentation:

www.lenovo.com/tvttour/europe

BUSINESS ADVANTAGE ESTIMATOR

A web tool designed to help you get a quick glimpse of potential support costs for PCs in your customer's business. In five easy steps you will have a report to identify potential savings which you could recommend to your customer.

www.lenovo.com/tvtcalc/europe

OTHER LENOVO SOLUTIONS

LENOVO VALUE LINE SERIES & IDEA FAMILY

Lenovo Value Line and Idea products are competitively-priced and loaded with unique tools and software for growing businesses, making your customers' life easier every single day. For you this means more business and more profitable opportunities.

www.lenovo.com/innovation/europe

SUPPORT

OneKey™ system recovery : Recover from a virus with the press of a button*.

*Some models restore to initial, factory state only.

SECURITY

Veriface™ facial recognition technology: make your face your password. Its a fun and easy way to log in to your PC.

DURABILITY

Active protection system™: protects hard disk drive from shocks. Uses an accelerometer to monitor movement of the system and stop the drive to help protect against damage when a fall or similar event is detected. Available on selected IdeaPad laptops.

ENTERTAINMENT

Multimedia center: a single interface helps you play CDs, DVDs and more. Dolby® Audio - select laptops feature Dolby® Home Theater™ or Dolby® Sound Room™ audio so you can immerse yourself in realistic and vivid theater-style sound.

THIRD PARTY OPTIONS PORTFOLIO

The Third Party Options portfolio has been created to provide a strategic, OEM product set that enhances the existing ThinkPad®, ThinkCentre, ThinkVision® and ThinkPlus Accessories Brands. It allows us to present a selection of OEM products, enabling our Business Partners and Customers to order from us whilst leveraging the manufacturers direct service and support capabilities.

All Third Party products carry standard service and warranty as supplied directly from the manufacturer of the product.

Please note that we do not provide service and warranty directly on any of the OEM branded products within the Third Party Options Portfolio. For further details, contact the relevant manufacturer directly.

THIRD PARTY OPTIONS PORTFOLIO

0A61419 - 1 PCI Express Full Height 1 Port RS232 Serial Card

PCI-E card provides 1 industry standard 9 pin RS232 serial COM port in a single PCI-E slot. Available as Full Height card, and fits in any PCI Express slot e.g., x1, x4, x8 or x16 lanes.

Now with Brainboxes Lifetime Warranty and Lifetime Support!

0A61318 - PCI Low Profile 1 Port RS232 Serial Card

Universal PCI card provides 1 industry standard 9 pin RS232 serial COM port in a single PCI slot. Available as a low profile card.

Low Profile is the industry standard small form factor design for PCI. Universal PCI is fully compatible with both 3.3Volt and 5Volt PCI slots; protecting your investment into the future.

Now with Brainboxes Lifetime Warranty and Lifetime Support!

57Y3543 - Low Profile Universal PCI 1 x LPT

Universal PCI card provides 1 industry standard 25 pin parallel port in a single PCI slot. Available as a low profile card. Low Profile is the industry standard small form factor design for PCI. Universal PCI is fully compatible with both 3.3Volt and 5Volt PCI slots; protecting your investment into the future.

Now with Brainboxes Lifetime Warranty and Lifetime Support!

30R5196 - Universal 1 Port PCI RS232 serial card

Universal PCI card provides 1 industry standard 9 pin RS232 serial COM port in a single PCI slot.

Available as standard height card and also as a Low Profile card.

Low Profile is the industry standard small form factor design for PCI. Universal PCI is fully compatible with both 3.3Volt and 5Volt PCI slots; protecting your investment into the future.

Now with Brainboxes Lifetime Warranty and Lifetime Support!

THIRD PARTY OPTIONS PORTFOLIO

Helps protect the computer screen from scratches and fingerprints.

Compatible with ThinkPad X300 and X301 systems.

THIRD PARTY OPTIONS PORTFOLIO

computer security

SafeGuard Easy full hard disk encryption simply and effectively encrypts your PC's entire hard disk drive so data thieves are unable to read your files. This is especially important as identity theft, privacy control, and regulatory compliance have generated heightened interest in data security. Sophos SafeGuard Easy is the most advanced and most trusted solution worldwide.

SafeGuard PrivateDisk is a personal electronic safe for users who store and frequently use confidential data on notebooks, PCs or removable media. SafeGuard PrivateDisk provides an easy to use virtual disk volume on the computer. The encrypted volume allows transparent encrypted read/write access on any media. The data is safeguarded, at all times, from unauthorized access.

SafeGuard Enterprise is a modular security suite that meets all current and future demands on data security. No matter where information is saved, or who it is being exchanged with, SafeGuard Enterprise secures data on mobile and fixed computing devices, on removable media, servers and in e-mails. The core of the brand new security suite is the central Management Center which for the first time enables companies to simply and effectively implement security guidelines across platforms to meet regulatory compliance requirements.

New ThinkVision Monitors

Lenovo Consumer Models (Available only through Hi-load orders)

LENOVO THINKVISION® LCD MONITORS

Lenovo L2021 WIDE Monitor

An excellent viewing experience

The Lenovo L2021 Wide monitor provides an excellent viewing experience with 1600 x 900 resolution. The L2021 Wide offers digital visual interface (DVI) connectivity with high-bandwidth digital copy protection (HDCP) to deliver high-definition viewing of protected contents. The widescreen monitor improves efficiency with easy viewing of multiple applications.

The L2021 Wide monitor coordinates with any Lenovo ThinkCentre® system and is the ideal choice to replace the 17 or 19-inch LCD monitor. It matches the Lenovo design and comes in business black.

ThinkVision 'Duo': Two Monitors in One!

ThinkVision L2321x Wide

The ThinkVision L2321x Wide is the ultimate business productivity tool designed for large enterprise users. It can simultaneously display contents from 2 video signal sources on the same screen as if it is '2-monitors-in-1', fully supporting legacy applications resolution requirements. This hardware-based solution gives users the flexibility to control the various screen-split modes without compatibility issues commonly seen in softwarebased solutions. Users can run an application in full-screen mode on one side and still work on other applications in the other side as if it were a second monitor. Users gain productivity boosts from true multi-tasking enabled by this '2-in1' monitor that is more cost, energy and space efficient than 2 conventional monitors. The L2321x Wide meets TCO Edge and EPEAT® Gold standards and also exceeds ENERGY STAR® 5.0 requirements.

The ThinkVision L2230x Wide

The ultimate notebook companion.

The Lenovo L2230x Wide monitor is your perfect notebook companion. As the industry's first port replicator monitor, you are able to connect to your peripherals including LAN access with a single USB connection to the monitor. It makes you more mobile and is convenient, as you don't have to waste time plugging your peripherals in and out of your notebook whenever you need to move. Also, the 21.5" Full HD display is easier on your eyes and helps you be more productive. The Lenovo L2230x Wide saves your time and offers you a cleaner desk space, with all the cables/plugs connecting to the monitor not the notebooks. In addition, it is TCO Certified Edge, EPEAT® Gold and Energy Star® 5 certified, which saves your energy costs and the environment.

LENOVO THINKVISION® LCD MONITORS

The ThinkVision L2251x Wide

More productivity at work.

The ThinkVision L2251x Wide is Lenovo's greenest and most ergonomic monitor ever and the world's first TCO Certified Edge monitor at the cutting edge of environmental responsibility and usability. Pioneering the use of the latest recycling technologies, the L2251x Wide uses 100% recycled basic plastics and 92% recycled plastics in packaging materials, a protective bag that is reusable, in addition to mercury-free, arsenic-free glass and low halogen. It is 29% more efficient than Energy Star® 5.0 standard, has Ambient Light Sensor and Proximity Sensor that further conserves energy, and has an integrated webcam that helps boosts productivity saving traveling time and expense. The L2251x Wide is a perfect choice for environmentally conscious desktop or notebook users seeking an energy efficient monitor and increased productivity.

New Wide Format

ThinkVision L2251p Wide

The ThinkVision L2251p Wide is an environmentally responsible monitor with DisplayPort for easy connection with notebooks and desktops. Pioneering the use of the latest recycling technologies, the L2251p Wide uses 65% recycled plastic content and 60% recycled packaging materials, in addition to arsenic free glass. It is 29% more efficient than today's Energy Star® 5.0 standard, so it is engineered ahead of future standards. The L2251p Wide is an excellent choice for users seeking productivity improvements in a multi-monitoring environment.

ThinkVision L1951p Wide

L1951p Wide offers a combination of environmental responsibility and ergonomics. The L1951p lowers your power bills with energy efficiency rating 21% better than the latest Energy Star 5.0 standard. Extensive use of 65% recycled plastics and 70% packaging materials as well as arsenic free glass are combined in one of the most environmentally responsible monitors for the workspace. The adjustable stand (lift and tilt) allows for versatility and user comfort. The screen images are brilliant and font reproduction is crisp and clear making it best suited for users seeking improved office application productivity.

Suitable For: ThinkPad X200/201, X200s/201s and X200/201 Tablet *

Part Number: 43R8781

ThinkPad W700 Mini Dock 2.0 - 4 USB 2.0 ports ; microphone in and headphone out audio ports; Dual-Link DVI-D (digital), VGA (analog) and DisplayPort video ports; RJ-45 Ethernet communications port; eSATA and S/PDIF; cable lock slot and key lock security; does not include AC adapter, works with 170W AC adapter

Suitable For: ThinkPad W700/W700ds and W701/701ds *

Part Number: 57Y4345

LENOVO THINKPAD® DOCKING SOLUTIONS

ThinkPad Port Replicator Series 3 - Four USB ports, VGA monitor, key lock, cable lock slot and Ethernet (RJ-45), no power adapter.

Suitable For: ThinkPad T400s, T410, T410s, T510, L412, L512 *

Part Number: 433610W

ThinkPad Mini Dock Series 3 - Six USB 2.0 ports ; microphone in and headphone out audio ports; Dual-Link DVI-D (digital), VGA (analog) and DisplayPort video ports; RJ-45 Ethernet communications port; cable lock slot and key lock security; Includes 90W AC Adapter

Suitable For: ThinkPad T400s, T410, T410s, T510, L412, L512 *

Part Number: 45N66xx

ThinkPad Mini Dock Plus Series 3 - Six USB ports, Dual DisplayPort monitor and Dual DVI-D monitor, VGA monitor, microphone in and headphone out audio ports, RJ-45 Ethernet communications port, e-SATA, cable lock slot and key lock security. Includes 90W AC Adapter

Suitable For: ThinkPad T400s, T410, T410s, T510, L412, L512 *

Part Number: 45N669x

ThinkPad Mini Dock Plus Series 3 for Mobile Workstations - Six USB ports, Dual DisplayPort monitor and Dual DVI-D monitor, VGA monitor, microphone in and headphone out audio ports, RJ-45 Ethernet communications port, e-SATA, cable lock slot and key lock security. Includes 90W AC Adapter

Suitable For: ThinkPad Optimized for ThinkPad W510 *

Part Number: 45M10xx

www.lenovo.com/support/docks

* Check the ThinkPad Accessories and Upgrades section for full compatibility details

LENOVO GRAPHIC ADAPTERS

What are the benefits of a Graphic Adapter?

- It helps users make the most of Windows Vista - the first Windows OS that can harness the power of an available graphics processor to give a premium 3D user experience via the Windows Vista Aero interface.
- It can improve productivity by enabling connection of multiple monitors to the same PC. More data can be viewed across screens and faster access to multiple open windows is possible.
- It allows the system processor to concentrate on non-graphic tasks, making applications run faster.
- A TV-Out feature permits, for example, video to be edited at a user's PC with the resulting output being viewed on a TV.
- It enables connectivity to high-definition monitors, projectors and TVs.
- Improved display performance through better colour fidelity and smoother video playback make a graphic adapter the answer for users working on graphic-intensive tasks, such as desk top publishing, animation, video editing and image processing, as well as scientific, mapping and engineering (eg. CAD/CAM) applications.

Which Graphic Adapter is right for your desktop system?

Increasing Performance	DVI-D Connection Adapter*	NVIDIA Quadro NVS290	NVIDIA Quadro NVS295	NVIDIA GeForce 310	NVIDIA GeForce 310	NVIDIA Quadro FX380 Low Profile

ATI AVIVOTM Colour Technology	-	-	-	-	-	-

* The DVI-I Video Connection Adapter is not a proper graphic adapter, since it uses the on-board (integrated) video subsystem. However, it is the simplest way to support a second monitor on desktop systems.

* USFF is not customer installable

Lenovo ThinkPad® Accessories and Upgrades

Lenovo ThinkPad® Accessories and Upgrades

Lenovo® recommends Windows® 7 Professional.

Lenovo ThinkPad® Accessories and Upgrades

1. Compatible with mobiles operating integrated graphics only. Models with discrete graphics should use 90W AC Adapter.
 2. Requires the 90W AC Adapter 40Y7659 or the adapter provided with the system.
 3. Supports 14 inch maximum models.
 4. System may be placed on the ledge, but no port replication or docking support is provided.
 5. Support for DVD+D (Digital Video Interface - Digital) function is determined by graphic subsystem on notebook.
 6. Uses the system 90W AC adapter, which can be purchased separately.
 7. USB connection must be provided through the docking station's PS/2 connector.
 8. The USB ports on this system will not support certain High Speed USB devices like cameras and memory
 9. Requires a Bluetooth enabled system or an optional USB Bluetooth Receiver
 10. Requires the use of the Lenovo Security Solution. Lenovo recommends installation of Service Pack 4 for users running Windows 2000.
 11. Supports system only. Does not support Series 3 docking stations.
 12. Compatible with L171p, L174, L190x, L193p, L197 wide, L200pw, L220x, L1700, L1900, L1940w, L1940pw and L2240pw model Flat Panel Monitors.
 13. Compatible when using system without docks or port replicators.
 14. System may be placed on the bottom plate, but no port replication or docking support is provided. Does support UltraBases for X Series.
 15. Requires the 90W AC Adapter 40Y7659 or the adapter provided with the system. Supports X200 Tablet 4 Cell Battery (43R9256) and X60, X61 Tablet 4 Cell Battery (40Y8314) only.
 16. System must be wireless upgradable. Requires an optional card for 802.11b/g/n wireless graphics requires driver version 4.6
 17. System must be wireless upgradable. Do NOT model if system is NOT wireless upgradeable or already has a card installed as standard.
 18. Requires the X200 Ultrabase (43R8781).
 19. Series 3 dock eSATA and audio ports are inactive. ThinkPad eSATA and audio ports are active.
 20. For 2nd HDD support in the ThinkPad X6 Tablet UltraBase, the ThinkPad Serial ATA HDD Adapter 40Y8725 is required.
 21. Can be used as the primary HDD or with the ThinkPad Serial ATA Hard Drive Ultrabay Slim Adapter 40Y9725 in the Ultrabay or in the ThinkPad Advanced Dock 250410x.
 22. May be used as the primary system Hard Disk Drive upgrade.
 23. Although this option will function correctly, option 73P3275 will provide a better mechanical fit.
 24. System must be wireless-upgradeable.
 25. Available on select WWAN ready ThinkPad models. For more information, visit: www.lenovo.com/support/wwanready
 26. Requires Ultralsim 90W AC/DC Adapter.
 27. Can be used as the primary HDD or with the ThinkPad Serial ATA Hard Drive Ultrabay Slim Adapter II 43R1980 in the Ultrabay of the system or in the Ultrabay of the X200 Ultrabase 43R8781 or ThinkPad Serial ATA Hard Drive Ultrabay Slim Adapter 40Y8725 in the Ultrabay of the ThinkPad Advanced Dock 250410x.
 28. Compatible with L1900, L240p, L2440p, L171p, L1951p, L2250p, L2251p and L2251x model Flat Panel Monitors.
 30. Requires the use of a bracket that ships with the battery. This battery is not compatible with the ThinkPad X60 Tablet Sleeve 41U3142.
 31. Tablet must have Tablet Sleeve 41U3142 or 43R9115 removed in order to fit into this case.
 32. For 2nd HDD support in the ThinkPad X6 Ultrabay 40Y8116, the ThinkPad Serial Hard Drive Bay Adapter 40Y8725 is required. These drives are also supported as the primary hard drive upgrade for usage in the X60 system.
 33. These drives are not compatible with M/Ts 2533 and 2534. For 2nd HDD support in the ThinkPad X6 Ultrabay 40Y8116, the ThinkPad Serial Hard Drive Bay Adapter 40Y8725 is required. These drives are also supported as the primary hard drive upgrade for usage in the X60 system.
 34. Compatible with ST10 systems only.
 35. ThinkVision TFT radial arm supports attachment of LCD monitors that have a 75mm or 100mm VESA mount. This Lenovo L171p, L174, L190x, L191, L192p, L192 wide, L193p, L194 wide, L197 wide, L220x wide, L200pw, L1700p, L1900, L1940, L240p, L2440p, L2440x and D22 wide monitors.
 36. This system is not compatible with any of the docking stations that clip into the monitor stand, however it may be placed on the bottom plate of the monitor stand once the optional pegs are removed.
 37. Compatibility varies by machine-type model. For more information, go to: www.lenovo.com/support/privacyfilters
 38. Compatible with selected ThinkPad models. ThinkPad model configurations offering WXGA with NVIDIA Quadro FX 2800M graphics.
 39. Compatible, however optimized for ThinkPad W510.
 40. Compatible with selected ThinkPad models. ThinkPad model configurations offering 45mm ExpressCard slot.

Lenovo ThinkCentre® Accessories and Upgrades

Lenovo ThinkCentre® Accessories and Upgrades

Lenovo ThinkCentre® Accessories and Upgrades

Footnotes

2. PC2-6400 and PC2-5300 memory can co-exist on the same system but will operate at the PC2-5300 speed. PC2-6400 is supported on Q965 chipset (not 946GZ or Q963 chipset).
3. PC2-6400 and PC2-5300 memory can co-exist on the same system but will operate at the PC2-5300 speed.
4. PC2-5300 and PC2-4200 memory can co-exist on the same system but will operate at the PC2-4200 speed.
5. Supports attachment of flat panel monitors with a 75mm or 100mm VESA mount. Weighs less than 10.9 kg (24.0 lbs) when desk mounted.
6. Compatible with L151, L151p, L171, L171p, L172, L174, L1700p, L190x, L191, L192p, L193p, L194 Wide, L197 Wide, L1900, L1940 Wide, L1940p Wide, L201p, L220x Wide, L200p Wide, L2240p Wide flat panel monitors
7. Attaching the cable lock to any ThinkCentre form factor not only secures the ThinkCentre to the work area, but it also prevents users from opening the chassis itself.
12. Compatible with L2440p Wide, L2440x Wide, L2251x Wide, L2251p Wide, L2250p Wide, L1951p Wide, L1900p, L1711p, L215p Wide, L215 Wide, D185 Wide flat panel monitors
13. Attaches to ThinkCentre's system DisplayPort or the installed DisplayPort graphics card. For more information, go to: www.lenovo.com/support/graphiccards or www.lenovo.com/support/monitoraccessories
14. "Fn" and "Hotkey" operations vary by system, for operation information go to: www.lenovo.com/support/keyboards
15. USB-only attach
16. Attaches to the installed DisplayPort graphics card. For more information, go to: www.lenovo.com/support/graphiccards or www.lenovo.com/support/monitoraccessories
17. ThinkPad In-Ear Headphones has 1.2-meter (3.94-foot) cable length. Best suited when system is in close proximity of the system. For example: Small Form Factor (SFF)-on-desktop environments.

Footnotes

1. ThinkStation models offer two PCI-e x16 graphic slots allowing two graphic cards to be installed.
2. Supports attachment of flat panel monitors with a 75mm or 100mm VESA mount. Weighs less than 10.9 kg (24.0 lbs) when desk mounted.
3. Memory operating speed is dependent lowest installed speed, processor and the DDR3-1333 configuration. For more information on memory configuration, operation and limitations, go to: www.lenovo.com/support/thinkstationaccessories
4. Mixing UDIMM and RDIMM is not allowed. Memory operating speed is dependent lowest installed speed, processor and the DDR3-1333 configuration. For more information on memory configuration, operation and limitations, go to: www.lenovo.com/support/thinkstationaccessories
5. Mixing UDIMM and RDIMM is not allowed. Memory operating speed is dependent lowest installed speed, processor and the DDR3-1066 configuration. For more information on memory configuration, operation and limitations, go to: www.lenovo.com/support/thinkstationaccessories
6. Mixing ECC (Error Correcting Code) and non-ECC is not allowed.
7. For ThinkStation S10, D10, S20, D20, attaching the cable lock not only secures the ThinkStation to the work area, but it also prevents users from opening the chassis itself. For ThinkStation C20, C20x, attaching the cable lock only secures the ThinkStation to the work area.
8. Mixing of Serial ATA and SAS Hard Drives is not recommended. Most S10 models are configured with Serial ATA Hard Drives, and most D10 models are configured with SAS Hard Drives.
9. If a 2nd processor is installed, the 2nd processor must match (matched pairs) existing installed Intel Xeon processor.
10. Compatible with L151, L151p, L171, L171p, L172, L174, L1700p, L190x, L191, L192p, L193p, L194 Wide, L197 Wide, L1900, L1940 Wide, L1940p Wide, L201p, L220x Wide, L200p Wide, L2240p Wide flat panel monitors
11. Compatible with L2440p Wide, L2440x Wide, L2251x Wide, L2251p Wide, L2250p Wide, L1951p Wide, L1900p, L1711p, L215p Wide, L215 Wide, D185 Wide flat panel monitors.
12. Attaches to DisplayPort graphics cards. For more information, go to: www.lenovo.com/support/graphiccards or www.lenovo.com/support/monitoraccessories
13. "Fn" and "Hotkey" operations vary by system, for operation information go to: www.lenovo.com/support/keyboards
14. USB-only attach.
15. Requires the Lenovo-installed, system specific PS2 adapter. For more information, refer to the ThinkStation Hardware Maintenance Manuals.
16. S20, C20 are SATA-based. SAS hard drives require the Lenovo-installed SAS controller adapter on S20.

1. Processor must match the existing processor in Slot 1

2. RD120 6447-22x, 23x, 24x, 25x have both processors slots populated in the base configuration.

3. External Only - connectivity requires enclosures 8765-1UX or 8767-HHX with Tape Enclosure kits: SCSI - 42C3910; SAS/SATA - 40K2599; USB - 44E8869.

4. Internal use requires IBM DDS Tape Enablement Kit 43V5959

5. Backplane allows configuration of both SAS & SATA HDDs. However, both SAS & SATA HDDs cannot be in the same RAID group.

6. 160GB and 250GB SATA II HDDs are not tested & qualified for these models.

7. Cannot intermix RDIMM and UDIMM memory, however, both RDIMM and UDIMM supported on all models.

8. Internal use requires ThinkServer IBM RD220 Enablement Kit 67Y0168

1. Processor must match the existing processor in Slot 1

2. Backplane allows mixed configuration of both SAS & SATA HDDs. However, both SAS & SATA HDDs cannot be configured in the same RAID group.

3. Cannot intermix RDIMM and UDIMM memory, however, both RDIMM and UDIMM supported on all models.

4. TD200x models include ThinkServer IBM Virtual Media Key

Lenovo® recommends Windows® 7 Professional.

Notes

LENOVO SERVICES

Think Service. Think Lenovo.

Lenovo offers a complete menu of services - worry-free options for warranty upgrades, PC protection, advanced technical support and more. Innovative services that small businesses need:

- **ThinkPlus™ Services** upgrade the base warranty service comfort level up to 5 years onsite service with next business day response target for ThinkPad Classic line, ThinkCentre desktops, ThinkStation and ThinkServers. For ThinkPad Edge line products is a special set of stackable service offerings designed to offer a flexible and individual warranty plans for small and medium business.
- **Lenovo CareSM Services** enhance the initial warranty up to 3 years for consumer products such as IdeaPads, IdeaCentres, and essential Lenovo notebooks and desktops as well. The period of cover includes the original product warranty period.
- **ThinkPad Protection (TPP)** brings an accidental damage protection option for mobile Think branded PCs by providing unlimited repairs and replacements of damaged parts not covered under warranty to protect small businesses from unexpected IT expenses.
- **Lenovo Care Protection** services provide coverage on repairs and replacement of damaged parts not covered under warranty - for both of Idea notebooks and desktops. A peace of mind for the end-user.
- **Hard Disk Drive Retention (HDD)** option allows customer to keep their hard drive if it fails and hold on to their data. Available for all Think-branded products.
- **ThinkPlus Priority Support** - a consolidated service package of fast, dependable and advanced IT support designed with the growing businesses in mind. Available for all Think systems.
- **ThinkPlus Productivity for ThinkServer** - one simple package to keep the servers up and running thanks advanced level tech support which includes installation, online training as well as ThinkPlus Priority Support for better value and customers' peace of mind.

Find detailed information about each service on the following pages.

LENOVO SERVICES

A Heritage of Excellence Backing the Exceptionally Engineered PCs

ThinkPlus™ and Lenovo Care™ family of services have been designed to upgrade and enhance standard base warranty for Lenovo systems and provide additional support in a convenient, affordable way for businesses of all sizes. Lenovo's service packages offer the access to a wide range of information technology support services available from one of the world's leading technology services organization.

Lenovo Is Committed to World-Class Service

- High Service Quality** - Lenovo Services provide high quality after-sales technical support enabling customers to maximize hardware availability and productivity.
- Flexible Service Offerings** - Lenovo has a wide range of support services designed to meet our customer's individual priorities, requirements and budgets.
- Service Infrastructure & Support** - our robust service infrastructure of Lenovo's Authorized Warranty Service Providers including business partners and self maintainers ensures that parts for Lenovo's products are available when required and our highly skilled technicians enable us to deliver a rapid response to our customer's needs.

The range of service level options from Lenovo is based on specific product types and by services brand:

LENOVO SERVICES - THINK FAMILY

Hard Drive Disk / Solid System Disk Retention

Hard Drive Disk / Solid System Disk (HDD) Retention widens the service offering portfolio for the Lenovo systems - ThinkPad notebooks, ThinkCentre desktops, ThinkStation workstations and ThinkServer systems as well.

This solution based ThinkPlus™ service option complements the warranty upgrades and allows users keep their hard drive or system disk to secure their data in case of any fail. If the customer's hard drive fails, they can retain the failed drive and Lenovo will provide a replacement hard drive (under the terms of the Lenovo warranty for selected Lenovo machines).

The non-return hard drive service is advisable everywhere where protecting critical data is important to your business.

LENOVO SERVICES - THINK FAMILY

ThinkPlus ThinkPad Protection

A predictable way to keep productivity high and PC repair budgets low - ThinkPad Protection (TPP) complements warranty services with accidental damage protection option for ThinkPad notebooks.

What's covered?

ThinkPad Protection cover repairs and replacements damaged by following accidents:

- Operational or structural failures under normal operating conditions or handling
- Minor liquid spills
- Unintentional drops and bumps
- Damage from electrical surges
- LCD screen failure

What's not covered?

- Cosmetic damage and damage from intentional misuse
- Damage due to unsuitable operating environment or improper maintenance
- Theft or loss
- External peripherals, consumable parts (i.e. batteries), removal or alteration of parts, mice, accessories, keyboards, printers, scanners)
- Third-party products (even if sold by Lenovo)

LENOVO SERVICES - THINK SERVER

ThinkPlus™ Services for Lenovo ThinkServer™

BECAUSE EXCEPTIONAL MACHINES DESERVE EXCEPTIONAL SERVICE

The brand new services for ThinkServers were designed with small business needs in mind. The decision to buy a server should be made carefully and thoughtfully, taking into account not only how the server will support your business, but also how the server will be supported. Lenovo makes that decision easy. Lenovo ThinkServers are engineered for exceptional quality to support your growing business needs. But what's more, they are supported by award-winning Lenovo Service, delivered hand in hand with trusted business partner.

Lenovo will get the new server up and running quickly, train your employees and provide priority response for all of customers service needs. We're committed to ensuring the ultimate server ownership experience.

ThinkPlus Priority Support for ThinkServer™ presents a consolidated support package that enable to upgrade the base warranty to 3 or 5 years with:

- 24x7 hardware & software phone support
- Onsite service with next business day response
- Priority call routing
- Advanced level technicians
- Software installation & usage support (phone based)

ThinkPlus Productivity is one simple package of support that includes installation, online training, as well as ThinkPlus Priority Support service. The package was designed to give business partners the ability to provide server installation and take advantage of Lenovo's Priority Support infrastructure to serve their customers. Online training is developed and delivered by Lenovo Training Solutions. It includes the basics on implementing, deploying and managing Lenovo ThinkServers.

ThinkPlus Priority Support	Consolidated, Preferred Support	Focus on your business, not your HW. Expert IT support for your business quickly, when you need it.
24x7 Telephone Tech Support	Single Point of Contact	Simplify support with a single source for HW and SW expertise - available when you need it the most.
Next Business Day Onsite Service	Convenient	The partner you trust, at your place of business, with the parts and expertise to fix the problem right the first time.
Priority Routing	Fast	Readily available access gets you to the front of the call queue.
Advanced Level Technicians	Effective	Fast problem resolution from technicians with the expertise you expect and deserve, to diagnose and solve problems quickly.
SW Installation and Basic Usage Support	Easy	Support for software installation and basic usage problems for in-the-box applications, including ThinkServer™ EasyManage, EasySetup and EasyUpdate.

ThinkPlus Priority Support for ThinkServer - 90 DAYS TRIAL included

Because we believe so strongly that ThinkServer™ customers can benefit from ThinkPlus Priority Support we're including a 90-day trial with all new servers to let customers experience first hand the peace of mind and confidence that this level of support provides during the most critical time of server ownership.

LENOVO CARE SERVICES

Lenovo Care for IdeaPad

The IdeaPad netbooks are complemented by an array of security and protection services that ensure users can enjoy a worry-free netbook experience. Additional services have been selected to complement the way our different segments will use their IdeaPad. These offerings focus on protecting our user's netbook and keeping their content safe.

Lenovo Care Notebook Protection

Mobility, small form factor and high usage demand protection against unexpected IT expenses. Coverage is provided for repairs resulting from drops, spills, electrical surges and more.

Specific warranty extensions and upgrades are available and are shown on the table.

LENOVO CARE SERVICES

Lenovo Care for IdeaCentre desktops

The warranty plans for Idea desktops extend terms and upgrade service levels of Lenovo initial base warranty. At any time during the initial warranty period, customers can choose to extend base warranty and get the fast and convenient warranty support up to 3 years.

Lenovo Care Desktop Protection

The accidental damage protection option for desktops helps protect against unexpected repair expenses or new system purchases by providing coverage due to drops or fall, minor liquid spills or electrical surges and in case of all-in-one desktops also including cracked LCDs.

Physical ThinkPlus™ / Lenovo CareSM

To provide an alternative to the well known e-pack service products, Lenovo Services developed also a family of ThinkPlus and Lenovo Care Physicals Service Packages like a limited printed hardcopy versions of the e-packs.

Service Delivery Definitions

All Lenovo hardware products are delivered with base warranty which is an integral part of the system specifications. Lenovo provides customers with a manufacturer’s warranty against faulty workmanship or defective parts, providing that the product receives normal use. The length and service comfort level are given by machine type and cannot be downgraded. The warranty period starts with the date when the product is sold to the end customer (proof of purchase date) and covers all parts and labour for a given warranty period, mostly one or three years. The length of the warranty period extension or upgrade may be up to maximum 5 years.

Warranties may be transferred to another customer if the product is sold during the warranty period. By accessing the service Customer may be required to provide proof of purchase to make a claim.

The customer is requested to work with Lenovo repair service representative during the problem determination and to perform those activities that Lenovo may request. The problem determination aim is to identify whether the problem resides with the customer’s Lenovo machine or whether the reason might be caused by other machines or software. Some problems can be resolved with a replacement part that you install yourself (such as keyboard, mouse, speaker, memory, hard disk drive, or port replicator), called a “Customer Replaceable Unit” or “CRU.” If so, your Service Provider will ship the CRU to you for you to install.

Under **Customer Carry-in** or **Mail-in** repair, the product will be repaired or exchanged at a designated service center, with delivery or shipping arranged by customer. Customer is responsible to deliver or mail, as their Service Provider specifies, (prepaid by you unless specified otherwise) the product, suitably packaged to a designated location. After the product has been repaired or exchanged, it will be made available for Customers’ collection. For **Mail-in** Service, the product will be returned to Customer at Lenovo’s expense, unless their Service Provider specifies otherwise.

Courier Collect or Collect & Return - should the product require repair, Lenovo will offer a pick-up and return service. Customer just calls our dedicated helpdesk who will quickly diagnose the problem and make the necessary arrangements to initiate the return service. The customer has to prepare the failing machine for collection arranged by Lenovo. (Collect & return service may involve packaging the product and taking to a local collection point.) A courier will pick up the customer’s machine and deliver it to the Lenovo Repair Centre. Following repair or exchange, Lenovo will arrange the delivery of the repaired ThinkPad to the same customer’s location where it was originally collected. The customer is responsible for installation and verification.

LENOVO CARE SERVICES

By **Onsite Service** level a service technician will repair the product at the customer's site and the customer is requested to cooperate to determine the problem remotely first.

The Next Business Day response time is an average target and not a committed service level, neither for response time nor for problem resolution time. Lenovo provides service during normal business hours (e.g. Monday to Friday 08:00 to 17:00), excluding public and national holidays.

WORRY-FREE COMPUTING? BE COVERED FOR ACCIDENTAL DAMAGE

THE ULTIMATE PROTECTION FOR THE ULTIMATE BUSINESS TOOL.

ThinkPad protection keeps users productive, avoiding costly downtime resulting from unintentional damage to the notebook. It means you can offer your customers the peace of mind of knowing that their notebook is protected.

WHY THINKPAD PROTECTION?

- > ThinkPad protection lowers the notebook's total cost of ownership by extending its life and protecting the investment.
- > Quick repair and replacement of parts ensure efficient problem resolution and increase user's productivity.
- > Service is provided by Lenovo, not a third party insurer, so instead of filing a claim, customers deal with a simple repair/replacement process.
- > Data is quickly and securely transferred to a new PC in the event replacement is required.*

For more information go to: www.lenovo.com/thinkpadprotection/europe

*If technically possible, users must/shall remove or secure all proprietary, confidential or personal data before presenting the product to Lenovo for repair or replacement and back up valuable information and data in a format external to the product to enable users to reconstruct lost or altered data or programs if necessary.
